

Index of Topics

The Science of Early Child Development, 2nd Edition

Topic	Module	Module Page(s)
Aggression	Coping and Competence	2.4.
	Coping and Competence	3.2.
	Coping and Competence	3.3.
Animal studies	Brain Development	2.1.
Attachment	Coping and Competence	3.1.
Autism	Brain Development	2.2.
	Coping and Competence	1.2.
	Communicating and Learning	2.3.
Autonomy	Coping and Competence	3.2.
Biological connections - mother and child	Coping and Competence	2.1.
Biological embedding	Brain Development	1.3.
Brain development	Brain Development	1
Brain development - early foundation	Brain Development	1.1.
	Brain Development	1.3.B.
Brain development and early nurturing	Brain Development	3
	Coping and Competence	1.1.
Brain development - prenatal	Brai Development	1.1.
Brain development - research tools	Brain Development	2
Brain development stages	Brain Development	3.1.
Brain plasticity	Brain Development	2.1.
Canadian community profiles	Developmental Health	2.2.B.
Community mapping	Developmental Health	2.2.E.
Contexts for development	The Ecology of Childhood	1.1.C.
Crying	Coping and Competence	2.1.

Topic	Module	Module Page(s)
Culture	The Ecology of Childhood	1.D.
Developmental health	Developmental Health	1
Early Development Instrument	Developmental Health	2.2.D.
Early childhood settings	The Ecology of Childhood	1.B.
	The Ecology of Childhood	2.2. to 2.2.B.
Ecological systems theory	The Ecology of Childhood	1.1.
Emergent curriculum	Communicating and Learning	3.4.
Epigenetics	Brain Development Page	1.3.A.
Experience-based brain development	Brain Development	1.3.
Everyday experiences	Brain Development	3.1.
Executive function	Coping and Competence	1.2.
Family	The Ecology of Childhood	1.A.
	The Ecology of Childhood	2.1 to 2.1.C.
	The Ecology of Childhood	3.2.
Fear	Coping and Competence	2.3.
Gender differences	Coping and Competence	3.4.
Genetic expression	Brain Development	1.3.A.
Gradients	Developmental Health	2.1.
Investing in the early years	Developmental Health	3. to 3.4.
	The Ecology of Childhood	2.4.
Language development	Communication and Learning	2. to 2.2.B.
Language development - conducting research	Communicating and Learning	2.1.
Language development - motherese	Communicating and Learning	1.1.
Literacy	Communicating and Learning	1.1.
	Communicating and Learning	2.2.B.
	Communicating and Learning	2.4.
	Communicating and Learning	3.2.
Maternal buffering	Brain Development	2.1.
Mathematical understanding / Numeracy	Communicating and Learning	2.4.

Topic	Module	Module Page(s)
Memory	Brain Development	2.4.
	Communicating and Learning	2.3.
National Longitudinal Study	Developmental Health	2.2.C.
Nature and Nurture	Brain Development	1.2.
	Brain Development	1.3.B.
	The Ecology of Childhood	1
Neighbourhood and community	The Ecology of Childhood	1.C.
Neural pathways	Brain Development	1.2.
Nurturing relationships	Brain Development	1
	Brain Development	2.1.
	Brain Development	3
	Coping and Competence	1
	Coping and Competence	3
	Coping and Competence	3.5.
Observing children	Brain Development	3.2.
Optimal environments	The Ecology of Childhood	3. to 3.2.
	Communicating and Learning	3.3.
Parent child relationships	The Ecology of Childhood	1.1.A.
	Coping and Competence	2.1.
	Coping and Competence	3.1.
	Coping and Competence	3.5.
Parenting styles	The Ecology of Childhood	1.1.A.
Physical punishment	The Ecology of Childhood	2.1.B.
	Coping and Competence	2.4.
	Coping and Competence	3.3.
Play	Coping and Competence	3.4.
	Communicating and Learning	2
	Communicating and learning	3.1.
Population Health	Developmental Health	1
	Developmental Health	2.2. to 2.2.F.

Topic	Module	Module Page(s)
Relationships	See <i>Nurturing relationships</i>	
Self regulation	Coping and Competence	1. to 1.2.
Sensing pathways	Brain Development	3
Sensitive periods	Brain Development	1.2.
Shaken baby syndrome	Coping and Competence	2.1.
Stress	Brain Development	2.3.
	Coping and Competence	1.2.
	Coping and Competence	2.3.
Supporting parents	The Ecology of Childhood	3.2.
Social capital	Developmental Health	3.2.
Social skill development	Coping and Competence	3
	Coping and Competence	3.3.
Socioeconomic status	Developmental Health	2.1.
Temperament	Coping and Competence	2.2.
Toronto First Duty	The Ecology of Childhood	2.2.
Vulnerability and well-being	Developmental Health	2.3. to 2.3.B.
	The Ecology of Childhood	2.3. to 2.3.D.
